

ITEMS SPECIFICATION – WASH ITEMS FOR SELECTED HOUSEHOLDS (IMO, BAUCHI & LAGOS)

Handwashing and Water storage Unit	Samples	Quality & safety
<p>JERRYCAN, rigid, 20L, food grade plastic, screw cap 50mm with 20mm threaded tap heat sunk into base (Yellow colour)</p>	 <p>Front - View Side - View</p>	<p>Tap seal must be tested for watertightness. Evidence of method of adaptation and safe production if PVC melting is involved.</p>
<p>JERRYCAN, rigid, 20L, food grade plastic, screw cap 50mm without tap (handwashing for wastewater) with lid security ratchet intact – Yellow colour</p>		
<p>Rectangular handwashing PVC basin (10L capacity): length 300mm, width 270mm, depth 150mm with 50mm diameter hole cut (drill with hole-cutter) to right central base of basin (sufficient space to allow attachment of standard length drainage waste pipe and rubber washer (see picture pictures) -</p> <p><i>Note: Drainage pipe will be 40mm diameter aperture and should fit without forcing –ensure drainage pipe comes with rubber wash – see picture)</i></p>		<p>Note that a hole 40mm or smaller will cause fracture when fitting is installed.</p>
<p>Paper clips (Big sized) 100 pieces per pack</p>		

KIT, CORDLESS DRILL, 14V,
(preferably BOSCH –see
picture. But similar
durability if BOSCH is too
expensive) with bits
(including 5mm Brad point
drill – vanadium steel)

Soldering Iron with cable
(for plastic seal repairs)

3mm diameter Multi-
Purpose Polypropylene
Rope

92 yards/ roll

Activated carbon filter
masks.

GLASSES, clear rigid plastic,
eyes front + sides
protection
